ELECTRICAL WIRING

WHY HAVE AN OPERATIONS AND MAINTENANCE AGREEMENT?

1. Make more money per kilowatt.
 - Proper maintenance helps ensure maximum energy output over the life of your solar installation.
2. Spend less time worrying.
 - Real-time monitoring, reporting, and professional field operations come standard.
3. Proactive maintenance strategy.
 - Greenskies O&M team use cutting edge technology to test and inspect as part of scheduled maintenance plans. Our local teams are dispatched for any emergency visits.
